

# Introduction to distance sampling

## Online course

## Table of contents

### 1. Introduction

- 1.1. Overview of the course [Video] [Slides] [Handout]
- 1.2. Estimating animal abundance [Video] [Slides]
- 1.3. Plot sampling [Video] [Slides] [Exercise (seals on beach)]
- 1.4. Distance sampling [Video] [Slides] [Exercise?]
- 1.5. Moving on... the rest of the course [Video] [Slides]

Background reading: Buckland et al. (2015) Chapter x.

### 2. Line transect sampling

- 2.1. The Montrave study [Video] [Slides]
- 2.2. Robin data from line transect sampling [Video] [Slides] [Exercise]
- 2.3. Line transect sampling estimators [Video] [Slides]
- 2.4. Design and model-based components [Video] [Slides]
- 2.5. Assumptions [Video]

Background reading: Buckland et al. (2015) Chapter x.

### 3. Point transect sampling

- 3.1. Robin data from point transect sampling [Video] [Slides] [Exercise]
- 3.2. Point transect sampling estimators [Video] [Slides]
- 3.3. Assumptions [Video] [Slides]

Background reading: Buckland et al. (2015) Chapter x.

### 4. Assumptions
